

Canadian Journal of Surgery

Cover • Couverture

Preoperative blood donation significantly reduces exposure to perioperative allogeneic blood products among patients having elective surgery.

Le prélèvement de sang préopératoire réduit considérablement l'exposition aux produits sanguins allogènes au cours de la période périopératoire chez les patients qui subissent une chirurgie élective.

Photo Dr. Bryan W. Jones

CJS Mission Statement: To contribute to the effective continuing medical education of Canadian surgical specialists, using innovative techniques when feasible, and to provide surgeons with an effective vehicle for the dissemination of observations in the areas of clinical and basic science research.

CJS and the Internet: Readers can find the *Canadian Journal of Surgery* online (at cma.ca/cjs). Detailed **Instructions for authors** can be found there (click on "About CJS").

Electronic submission of manuscripts can be made at <http://mc.manuscriptcentral.com/cjs>.

Mandat du JCC : Contribuer à dispenser une éducation médicale continue efficace aux spécialistes en chirurgie au Canada, autant que possible à l'aide de techniques de pointe, et fournir aux chirurgiens un mécanisme efficace pour diffuser les constatations de la recherche clinique et fondamentale.

Le JCC et l'Internet : Les lecteurs trouveront en direct le *Journal canadien de chirurgie* (à l'adresse cma.ca/cjs-f). Pour les **Directives aux auteurs**, on trouvera des instructions détaillées à «Info sur JCC».

Nous favorisons l'**envoi électronique de manuscrits**. Veuillez visiter le <http://mc.manuscriptcentral.com/cjs>.
